I.T.G.O.A. ZINDABAD

Dear Comrades,

9th December,2016

It is quite obvious that after the recent Demonetization scheme of the Govt., various other stringent measures will also be needed to fight out the menace of black money and in such measures, the Income Tax Department will have to play a pivotal role. As the fight against the menace of black money requires a continuous and long-term mechanism, the process of identification, examination, investigation and verification of transactions made consequent to demonetization shall entail large increase in workload for which adequate manpower and logistic support will be required. However the entire work force of the Department is totally de-motivated due to the huge stagnation in officers cadre and the huge shortage of manpower in lower cadres, along with the shortage of proper infrastructure and anomalous situation in pay and remuneration after the implementation of 7th CPC report.

We have already written letters to the Hon'ble PM and FM, GOI, narrating all these issues and requesting for audience so that the grievances of the members of JCA can be rightly presented before them, but the result so far is not up to our expectation. As the competent authority showed its reluctance in paying proper attention to the problems of the entire cross-section of officers/officials of the Department, the Central JCA decided to bring, the functional requirement of the Department in the post-Demonetization era, to the knowledge of all.

Accordingly a press release was issued which was widely covered by national media including popular TV channels. The highlight of the press statement is that the objective of taxing the black money will be difficult to achieve without resolving these issues.

Comradely yours,

AJAY GOYAL
